

## NDS Announces Transition to Non-Profit Status

After 18 years of working with Michigan healthcare and corporate communities, National Diagnostic Services (NDS) is excited to announce that they have achieved non-profit status. Effective October 2015, the Novi based company, which provides wellness management services and health education is classified as a privately-held non-profit organization.

Michael Ketslakh, CEO of NDS states, “We have always looked for opportunities to make a positive impact on the communities we serve. This transition to non-profit status simply allows us to leverage our expertise, knowledge and successes to invest in a healthier, more educated community. It is critical for successful organizations to give back to the people who have helped make them successful in the first place. We look forward to many successes partnering with other organizations to realize our common goal of ‘Better Health Through Prevention’ ”

NDS provides top quality healthcare with the core of their business being a highly skilled and experienced staff of board certified physicians, licensed practitioners, and a qualified staff that has more than twenty-five years of experience in testing, screening and allied medical services. Further info on our wellness programs, including our Mobile Wellness Clinics is at [www.NDSWellness.com](http://www.NDSWellness.com) .

National Diagnostics Services will continue to give back to the community and structure programs which improve overall health, increase quality of healthcare and reduce costs. NDS is looking for opportunities to partner with other organizations to expand outreach programs in underserved communities. NDS’s commitment to working with educational entities to implement services within the community is further strengthened by this change.

### [About National Diagnostic Services www.NDSWellness.com](http://www.NDSWellness.com)

We are a private non-profit organization that creates and implements corporate wellness programs which result in happier, healthier, and more productive team members.

- Our 24/7 onsite corporate medical clinics reduce the need for high cost options such as hospital emergency rooms.
- Our unique Mobile Clinic brings annual wellness visits directly to your team members; delivering easy access to care and eliminating the need to take a day off of work to utilize a covered benefit.
- Our diagnostic services provide specialized care in cardiology, neurology, and radiology testing services.
- Our healthcare education programs inform team members of critical healthcare topics via onsite and web-based presentations, seminars and materials.

We apply a targeted approach, beginning with executive management's development of a corporate strategy. Our promotion activities and onsite presence ensure participation in your wellness initiatives.
